

Exactly two years after releasing "riss", Gregor Dys' painful and radically personal reflection of wounding and healing, All My Ghosts releases a remix-collection of the album. "riss remixed" features seven takes on the 2022 album by Gregor Dys. While "riss" delves deeply into darkness, the remix tape promises a wide spectrum of emotions. The doom and gloom gets a jolt of energy by Emely Hedel and Katalog, while the glimmer of hope is amplified and reconstructed by Oliver Gehrmann and Nils Panda.

The tape will be available from August 14th as a limited edition black tape with transparent stickers on white cardboard sleeve and digitally on all platforms.
